# celebrating 80 years.

---

Condit Exhibits, **founded in 1945** by artist Bill Condit, is celebrating a momentous 80th anniversary in 2025. Established as the **first graphic design firm in Denver**, we've evolved into a versatile and innovative experiential marketing agency, specializing in designing and manufacturing tradeshow booths, museum exhibits, corporate installations, and temporary structures.

Heading into our ninth decade as an organization, we'll keep our core values of collaborative design, high-quality craftsmanship, and responsive customer service at the forefront of our business strategy with an increasing focus on **sustainability and future workforce development.**

And as we commemorate 80 years in business, we take pride in a legacy built on quality, innovation, and exceptional service. This milestone is not just a reflection of our past but a celebration of the **partnerships, creativity, and resilience** that will drive us forward into the next part of our story and help us to support yours, too.

## We're centrally located in the Mountain West & the Midwest to optimize your tradeshow event marketing program.

---

We call Denver, Colorado our home, but we work around the globe. Founded as the first graphic design studio in Denver, “Condit Advertising Art” was established for just \$88 and employed only two people in a windowless attic office. Today, Condit has been a Colorado company for 80 years. Our Denver headquarters, housed in a historic railroad depot and blacksmith shop at the I-70/I-25 corridor, spans about 157,000 square feet. Our Midwest office, 85,000 square feet, is just outside Chicago, Illinois.

Both facilities have manufacturing and storage capabilities with dedicated internal teams who perform all company offerings, including sales, marketing, design, fabrication, engineering, warehousing, customer service, traffic coordination, and accounting.

In addition, Condit can support your tradeshow program on a global scale. From our Las Vegas storage facility to our trusted international partners in Europe, Asia and South America, know that wherever your shows take you, you can be sure we will handle the logistics to make your event come to life.

# condit sustainability.

---

## **Sustainability In Exhibit Design & Construction**

Sustainable tradeshow exhibit design focuses on minimizing environmental impact while creating engaging and functional brand displays. Condit Exhibits sustainability program is one of the first “green” design and construction programs in the American exhibit industry. Started in 2003, we offer our clients the option of making their exhibits “greener”- more environmentally friendly, and reflective of their own efforts toward sustainability.

## **Sustainability In Material Disposal**

When it comes time for a new booth or other updated exhibit properties, Condit has developed disposal and recycling protocol with eco-friendliness top of mind. Our recycling programs include: metals, batteries, electronics, crates and pallets, office furniture, household furniture, cabinetry, lightning, acrylics, carpet, vinyl, turf, and padding. We offer an expansive rental inventory and partner with a number of local organizations, to maximize repurposing.

## **Sustainability In Our Facility**

We practice what we preach, and like so many of our clients and partners, we are consistently investing in sustainability for our own backyard. Some of our current facility features include: reusable drink- and cookware, waterbottle refill station, office recycling (paper/cardboard, plastic, aluminum), tree-planting program (to offset printer usage), digital alternatives to printing (tablets, projectors), roofing solar panels, community garden, backyard wildlife refuge, office chicken coop, chemical filtration and emissions reduction in graphic printing/production, and an on-site apiary.

# our recent awards.

---

capabilities.

# exhibit design

---

Condit is dedicated to bringing artistry to life through exceptional design. We work closely with our clients at every step to ensure a final result that everyone can be proud of.

# graphic production

---

Our innovative graphics team produces your branded imagery while adhering to the highest standards of print quality through the latest software, tools, machinery, and color-matching.

# account management

---

The **Account Manager** (AM) and Account Executive (AE) work together to ensure each client's show is a success, with 24/7/365 support. Some key responsibilities of the Account Manager include:

- Reviewing exhibitor service manuals to ensure all booth regulations and deadlines are met
- Collecting estimates and quotes needed to prepare the client facing show service proposal
- Ordering of any contracted show services on the exhibitor's behalf
- Generating show kits to provide our onsite labor team, which include set-up prints, inventories, shipping information, order confirmations, photos
- Distributing a detailed contact sheet for client reference while on show site that includes important dates/time and phone numbers for the onsite crew and service providers
- Traveling to the show and assisting with any client needs on the floor
- Compiling all invoices post show needed for final invoicing

# project management

---

The **Project Manager** (PM) oversees fabrication of the approved booth design and makes sure it comes to life on budget and on time, with 24/7/365 support. Some key responsibilities of the Project Manager include:

- Working with internal departments and outside vendors to obtain any necessary materials
- Providing detailed information required for accurate construction drawings
- Supporting manufacturing team in building the physical booth
- Ensuring the booth is properly staged, inventoried, packed and shipped from Condit
- Assisting with any show site questions and trouble shooting any issues that might arise
- Overseeing the maintenance and inspection (M&I) of the booth, post show, to verify all items are returned and in good condition. Any damage will be photographed, recorded, and communicated to clients with the option to repair before it is returned to storage

**“Overall, account management and project management can take care of everything, so a client just has to show up onsite, not worry about their booth, and focus on their company's goals of attending the tradeshow!”**

**– Kayla Robbins, Account Manager**

# fabrication

---

Condit has over 70,000 square feet of manufacturing area with extensive capabilities in wood- and metal-working. In our build process, we employ a multitude of construction disciplines and high-quality, eco-conscious materials including wood, laminate, paint, metal, fabric, acrylic, and extruded aluminum.

# logistics

---

We have developed long-standing relationships with qualified carriers who specialize in transportation and delivery of tradeshow freight. They will ensure your booth properties are delivered on time and damage-free.

# labor & show services

Your onsite team will oversee the installation of your booth properties and be available throughout the show to assist with any issues that may arise. Our onsite supervisors are familiar with your specific booth properties and can make adjustments or repairs as needed in tandem with our preferred network of qualified third-party labor partners.

At the conclusion of the show, the on-site supervisor remains onsite to oversee dismantle and make certain all of your exhibit materials are properly packed for storage.

Condit coordinates all venue services, including rigging, electrical, cleaning, drayage, internet access, plumbing, lead retrieval, furniture rental, storage, security, etc.

# storage

---

Client-owned exhibits and properties are stored in one of our temperature-controlled warehouses. Condit's team of dedicated warehouse professionals always ensures meticulous inventory management, allowing you to maintain accurate records and easily access your goods when needed.

# maintenance

---

Upon receiving your exhibit after an event, we take inventory of all parts - down to the last screw. Any damage or other issues are documented in detail by our team and quickly reported to you for prompt remediation.

# asset management

Condit utilizes ExhibitForce for client asset management, order tracking, and more. ExhibitForce is an all-in-one portal that brings enhanced convenience and visibility to all phases of an exhibit project, including: estimating, approval, proposals, and timelines.

## Through ExhibitForce, clients can work with us to:

- Obtain event-specific data and/or aggregate info
- View events by status
- Customize with corporate branding
- Collaborate 24/7/365
- Manage comprehensive inventory in real-time
- Access upcoming events and event history on-the-fly
- Easy copy format for next year's events including inventory
- Attach files to specific events

“I cannot tell you how many people shared their love of our booth and how creative, inviting, and joyful it was. It’s our best yet.”
