# Engineered to Your Exact Specifications

Every platform is custom-engineered for longevity, durability and lowest total cost of ownership.

## Single/Double Expandable

Multi-room  
Configurations

## Skyview

Maximum Interior Space

## Self Propelled Vehicles

Integrated Mobility

## ISO Containers

Multi-modal Transport ·  
Durable Finishes

# Engineered to Your Exact Specifications

Whether you need a mobile medical facility, command center, or a custom marketing experience; our team brings precision engineering and manufacturing excellence to every project

**1**

## **DISCOVERY**

Understanding your requirements, operational environment, and technical specifications through collaborative consultation

**2**

## **ENGINEERING**

3D CAD design and precision engineering with regular client collaboration and feedback

**3**

## **MANUFACTURING**

ISO-certified production with lean manufacturing principles and rigorous quality control

**4**

## **DELIVERY & SUPPORT**

Comprehensive installation, commissioning support and ongoing service partnership

# COMMERCIAL SOLUTIONS

# Mobile Marketing Exhibits

Take your brand on the road with KTSV mobile marketing trailers. Designed with premium finishes, advanced AV, and seamless connectivity, these units turn every stop into an unforgettable brand experience that engages audiences and drives measurable results.

## Direct Consumer Engagement

- Opportunity to demonstrate products hands-on and answer questions instantly

## Create immersive brand experiences

- Engage multiple senses (sight, sound, touch, taste) for stronger brand recall

## Cost-Effectiveness

- Repurpose the same unit across multiple markets and campaigns
- Better ROI than traditional advertising for certain objectives

# Mobile Banks

KTSV's mobile banking trailers enable financial institutions to serve customers anywhere with secure, accessible units ideal for market expansion, service continuity during outages, or emergency relief.

## Expanding Market Reach

- **Access underserved areas** without the cost of building permanent branches
- Test new markets before committing to permanent infrastructure

## Cost Efficiency

- **Lower capital investment** compared to traditional brick-and-mortar branches

## Disaster Response & Business Continuity

- **Maintain service during emergencies** when physical branches are damaged or inaccessible
- Provide critical banking access after natural disasters

# Classrooms

KTSV's mobile classroom trailers deliver training and education anywhere, seating 50+ students in climate-controlled, purpose-built environments designed for workforce development, STEM programs, and more.

## Geographic Flexibility –

- Bring education and training directly to underserved areas, remote locations, or multiple sites without requiring students to travel long distances.

## Cost Efficiency –

- Avoid the expense and time of constructing permanent buildings while still providing a fully-equipped learning environment. Mobile units can be relocated as needs change, maximizing your investment.

## Rapid Deployment –

- Respond quickly to urgent training needs, emergencies, seasonal demands, or temporary capacity gaps without the delays of traditional construction projects.

# Workshops

KTSV's mobile workshop trailers bring fully equipped shops to any jobsite with integrated power, air, lighting, secure storage, and climate control—keeping field repairs, fabrication, and service operations efficient and on schedule.

## •Rapid Deployment and Flexibility

Mobile workshops can be transported to any location, enabling quick setup in remote job sites, disaster recovery zones, or temporary projects without the need for permanent infrastructure.

## •Cost Efficiency

They reduce overhead by eliminating the need for building or renting fixed facilities. This makes them ideal for short-term contracts or operations that require specialized equipment only occasionally.

## •Enhanced Operational Capability

Equipped with CNC mills, welding stations, or labs, these units bring advanced manufacturing and repair capabilities directly to the field, minimizing downtime and improving productivity.

# Custom Specialty Vehicles Across Multiple Industries

From concept to completion, we engineer custom solutions for any requirement and any environment.

## MEDICAL & HEALTHCARE

- › Mammography Units
- › Mobile Clinics & X-Ray
- › Surgical Sterilization Labs

## MILITARY & GOVERNMENT

- › Command & Control Centers
- › SCIF (Sensitive Compartmented Information Facilities)
- › Simulation & Training Units

# Custom Specialty Vehicles Across Multiple Industries

From concept to completion, we engineer custom solutions for any requirement and any environment.

## COMMERICAL

- › Mobile Marketing Exhibits
- › Mobile Banks
- › Classrooms & Labs
- › Museums & Workshops

## VEHICLE TRANSPORT

- › XL-12 Multi-Car Haulers (6-7 Cars)
- › 3-Car Haulers
- › Motorsports & Racing Trailers
- › Specialty Vehicle Transport

# Partners

# Let's Build Your Custom Solution

## Partner With Manufacturing Excellence
